Lead beneficiary:	TUB
Workpackage leader (name):	TUB
Description writer (name):	Mr. Alex Mutig
Date planned:	30.11.2008 (original)
Date finished:	12.02.2009 (update)

Deliverable reached  not reached

---

A publically-accessible website for the VISIT Project has been established to promote and attract attention and is available at:

<http://www.visit.tu-berlin.de/>

This website is not used for internal project collaboration but is intended primarily to highlight the aims and accomplishments of the VISIT team. The website has been created using the TYPO3 Content Management System at the Technical University Berlin (TUB). The general design of the website is provided by TUB's TYPO3 service.

The website consists of the following parts: 1) Project Overview; 2) Partners; 3) Technology; 4) Publications; 5) Press Mirror; and 6) Workshops. The first part, Project Overview contains the basic description of the project including the project's aims and objectives. The second part, Partners describes the partner profiles, includes hyperlinks to the partner websites, and also gives an overview of the VISIT consortium. The third part, Technology includes a description of the main concepts and the technology that is used in the VISIT Project. The fourth part, Publications contains an updated list of partner publications. The fifth part, Press Mirror contains links to any press releases that are relevant to the project. Finally the sixth part, Workshops will contain extensive information on the VISIT Project workshops (once this becomes available). All website hyperlinks and edited text will be updated at a minimum bi-weekly.

Future Work: major changes to the website as suggested by the VISIT partners will be solicited and considered approximately every six months.
